VELUX®

The No Leak Skylight™

Four great reasons to replace existing skylights when you replace a roof.

1. Save Money and Time

During a skylight replacement, a roofer removes the shingles around the skylight to re-flash and seal the window to the roof deck or curb. Therefore, the most ideal, cost-efficient time to replace a skylight is when you re-roof and are removing all the old shingles to lay down new ones.

2. Biggest Promise, Strongest Warranty

VELUX is the only skylight company to implement three layers of protection in our product design, giving you peace of mind against leaks. Our comprehensive, industry-first No Leak Warranty covers your skylight and its installation against leaks for 10 years.*

*VELUX FLASHING REQUIRED.
Visit thenoleakskylight.com for more information.

3. Improved Energy Efficiency

VELUX continually develops and tests our skylights to ensure we maintain our high standard of design. We offer Clean, Quiet, & Safe glass (advanced LoĒ³ coating) that provides the best balance of daylight and heat control, improving the energy efficiency of your window.

4. Federal Tax Credit

Go Solar, Save Big!

The Sun provides us with more energy in a single hour than the entire world uses in a year. So, why depend on energy from anywhere else? Go Solar with VELUX and see how you can save big, both on your home's energy efficiency and in your pocket!
